PARAS RAM CHAVAN

B.Tech Computer Science Engineering | Software Development | Web & IoT

Kolhapur, Maharashtra, India | +91 7278669696 | chavanparas004@gmail.com

linkedin.com/in/paraschavan214 | github.com/parshyaa214

PROFESSIONAL SUMMARY

Second-year B.Tech Computer Science student with a solid foundation in C, data structures and algorithms, and front-end web development, plus hands-on Arduino/IoT practical work. Built multiple web projects, completed a Google for Developers AI-ML virtual internship, and bring 10 months of customer-facing sales and CRM experience. Seeking an internship or entry-level software role to build reliable, user-focused solutions.

EDUCATION

D Y Patil Education Society School of Engineering and Management, Kolhapur *Sep 2025 – May 2029*

B.Tech in Computer Science Engineering | Currently in Year 2, Semester 3 | CPA: 9.02

Shri Tripura Junior Science College, Latur | *HSC, Science Stream* *2022 – 2024*

TECHNICAL SKILLS

Programming Languages: C Programming; basic problem-solving and logical thinking

Data Structures & Algorithms: Arrays; Structures and Pointers; Singly Linked Lists; Stack and Queue; Linear Search and Binary Search; Sorting Algorithms; Graphs and Adjacency List Representation; Depth First Search (DFS – Recursion); Breadth First Search (BFS – Queue); CRC Encoder and Decoder

Web Development: HTML5, CSS3, JavaScript, Responsive Web Design, Local Storage

Development Tools: Git and GitHub, Visual Studio Code, Antigravity IDE

Frameworks & Technologies (Learning): React.js, Vite, Node.js, Express.js, MongoDB

Hardware & IoT: Arduino Uno, RFID RC522, Temperature and Humidity Sensors, Sensor Interfacing

PROJECTS

Career Guide – Career Guidance Web App | *HTML, CSS, JavaScript, Local Storage* *Completed (front-end)*

- Designed a web platform that helps students explore suitable career paths based on academic performance, interests and preferences.
- Stored user inputs and results in the browser using Local Storage; built a responsive, easy-to-navigate interface.

LokSevva – Government Survey & Public Welfare Portal | *HTML, CSS, JavaScript* *Completed (front-end)*

- Built a portal concept connecting government departments, private organizations and citizens around surveys, government schemes and citizen participation.

ApnaDJ – DJ Booking Marketplace | *HTML, CSS, JavaScript* *Front-end completed; backend planned*

- Created a marketplace interface where DJ owners list their setups and customers browse services and book online.

SpotLight – Local Product Discovery Platform | *React.js, Node.js, Express.js, MongoDB, Maps API (planned)* *In planning / development*

- Designing a location-based platform to search products and find nearby shops, availability, prices and directions.

Arduino Projects – RFID Attendance & Temperature/Humidity Monitoring | *Arduino Uno, RFID RC522* *Practical work*

- Interfaced RFID RC522, temperature and humidity sensors and a buzzer with Arduino Uno to build an attendance system and an environment monitor.

CERTIFICATIONS & TRAINING

- **AI-ML Virtual Internship** – Google for Developers (India Edu Program) with AICTE and EduSkills, 10 weeks, Oct–Dec 2025. Grade: O (Outstanding).
- **Process Intelligence Fundamentals** – Celonis Academy, Oct 2026 (credential verifiable on Credly).
- **Energy Literacy Training** – Energy Swaraj Foundation with School of Engineering and Management, Kolhapur, 12 modules, Oct 2026.

WORK EXPERIENCE

Sales Executive | *TVS Motor Company, Kolhapur* *Oct 2024 – Aug 2025*

- Exceeded quarterly sales targets by 28% using customer data insights and relationship building.
- Analyzed sales metrics with CRM tools and Excel to spot trends and forecast demand.
- Proposed process automation that cut customer onboarding time by 35%.
- Named Best Sales Executive of the Month (April and July).

LANGUAGES

English (Fluent), Hindi (Native), Marathi (Native)
